

**National Interagency Coordination Center  
Incident Management Situation Report  
Wednesday, July 25, 2018 – 0530 MT  
National Preparedness Level 4**

**National Fire Activity**

Initial Attack Activity:	Moderate (202 fires)
New large incidents:	14
Large fires contained:	11
Uncontained large fires:**	60
Area Command teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	3
Type 2 IMTs committed:	10

Nationally, there are 23 large fires being managed under a strategy other than full suppression.

\*\*Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

The U.S. has mobilized 12 federal wildland firefighters to support fire suppression efforts in Ontario, Canada.

One RC-26 aircraft with Distributed Real-Time Infrared (DRTI) capability and support personnel from the 141st Air Refueling Wing (Washington Air National Guard) has been deployed to Spokane, WA in support of wildland fire operations in the West.

**Northwest Area (PL 4)**

New fires:	41
New large incidents:	2
Uncontained large fires:	23
Type 1 IMTs committed:	2
Type 2 IMTs committed:	4

**Garner Complex** (6 fires), Grant Pass Unit, ODF. ODF IMT 1 (Cline). Four miles east of Cave Junction, OR. Timber and medium logging slash. Active fire behavior with uphill runs, group torching and short-range spotting. Numerous structures threatened. Evacuations, road and area closures in effect.

**Natchez**, Rogue River-Siskiyou NF. IMT 1 (Livingston). IMT is also managing the Klondike incident. Fifteen miles southeast of Cave Junction, OR. Timber, chaparral and hardwood litter. Active fire behavior with backing, uphill runs and group torching. Structures threatened. Road, area and trail closures in effect.

**Klondike**, Rogue River-Siskiyou NF. Nine miles northwest of Selma, OR. Hardwood litter and brush. Active fire behavior with backing, uphill runs and group torching. Residences threatened. Road and area closures in effect.

**South Umpqua Complex** (4 fires), Umpqua NF. IMT 2 (Sheldon). Thirty miles southeast of Myrtle Creek, OR. Timber. Moderate fire behavior. Residences threatened. Road closures in effect

**Sugar Pine**, Rogue River-Siskiyou NF. IMT 2 (Gales). IMT is also managing the Goodview, Round Top and Union incidents. Twelve miles northwest of Prospect, OR. Timber. Moderate fire behavior with backing, flanking and torching.

**Goodview**, Rogue River-Siskiyou NF. Ten miles northwest of Prospect OR. Timber. Moderate fire behavior with backing, flanking and isolated torching.

**Round Top**, Rogue River-Siskiyou NF. Eight miles northwest of Prospect, OR. Timber. Moderate fire behavior with flanking and smoldering.

**Union**, Rogue River-Siskiyou NF. Ten miles northeast of Prospect OR. Timber. Minimal fire behavior.

**Hendrix**, Rogue River-Siskiyou NF. IMT 2 (Harrod). Nine miles southwest of Ashland, OR. Timber and medium logging slash. Active fire behavior with single-tree torching. Residences threatened. Road, area and trail closures in effect.

**Timber Crater 6**, Crater Lake National Park, NPS. IMT 2 (Goff). Twenty miles southwest Chemult, OR. Timber. Active fire behavior with backing, group torching and short-range spotting. Area closures in effect.

**Substation**, Wasco County. Started on private land five miles south of The Dalles, OR. Brush and tall grass. Minimal fire behavior. Numerous structures threatened.

**Cemetery**, Prineville District, BLM. Thirty-two miles southeast of Prineville, OR. Timber, brush and tall grass. Minimal fire behavior.

\* **Rail Canyon**, Vale District, BLM. Twenty miles east of Rome, OR. Tall grass. Active fire behavior with wind-driven runs and short-range spotting. Sage-grouse habitat threatened.

\* **Big Grassy**, Vale District, BLM. Twenty miles east of Rome, OR. Brush and tall grass. Active fire behavior with short-range spotting and wind-driven runs. Sage-grouse habitat threatened.

**Wagner Complex** (1 fire), Medford Unit, ODF. Three miles south of Talent, OR. Timber and brush. Moderate fire behavior with flanking, backing and short-range spotting. Structures threatened. No new information.

### **Great Basin Area (PL 3)**

New fires: 23  
 New large incidents: 8  
 Uncontained large fires: 16  
 Type 2 IMTs committed: 1

**Owyhee**, Sho-Pai Tribe, BIA. IMT 2 (Chadwick). One mile east of Owyhee, NV. Brush and short grass. Moderate fire behavior with backing, creeping and smoldering. Structures and sage-grouse habitat threatened. Road, area and trail closures in effect. Reduction in acreage due to more accurate mapping.

\* **Antelope**, Winnemucca District Office, BLM. Seven miles south of Denio, NV. Brush, short grass and tall grass. Extreme fire behavior with running, torching and short-range spotting. Structures and sage-grouse habitat threatened.

\* **Twin Butte**, Madison County. Five miles west of Rexburg, ID. Brush and short grass. Minimal fire behavior.

\* **Cow**, Boise District, BLM. Ten miles northeast of Jordan Valley, OR. Brush and short grass. Active fire behavior with running, flanking and backing. Structures and sage-grouse habitat threatened.

\* **Trestle**, Idaho Department of Lands. Started on private land four miles northeast of Smiths Ferry, ID. Timber and brush. Active fire behavior with short crown runs and single-tree torching. Area closures in effect.

**Crooked Creek**, Central Area, Utah DOF. Two miles northeast of Milburn, UT. Timber and Brush. Minimal fire behavior. Road, area and trail closures in effect.

\* **Beav**, Boise District, BLM. Fifty miles southwest of Mountain Home, ID. Grass. Moderate fire behavior with running, flanking and backing. Structures and sage-grouse habitat threatened.

**Cove Creek**, Fishlake NF. Twenty miles north of Beaver, Utah. Timber and closed timber litter. Moderate fire behavior with backing, flanking and single-tree torching. Communication infrastructure threatened. Road, area and trail closures in effect.

\* **Bruneau**, Twin Falls District, BLM. Twelve miles northwest of Murphy Hot Springs, ID. Brush and short grass. Extreme fire behavior with running. Sage-grouse habitat threatened.

**Lodgepole**, Boise NF. Sixteen miles northeast of Garden Valley, ID. Timber, brush and tall grass. Moderate fire behavior with flanking, backing and torching.

**Dollar Ridge**, Northeast Area, Utah DOF. Thirty-six miles southeast of Heber City, UT. Timber, brush and tall grass. Moderate fire behavior with single-tree torching, smoldering and creeping. Road, area and trail closures in effect.

**Sweeney**, Winnemucca District, BLM. Forty miles northeast of Lovelock, NV. Timber, brush and short grass. Minimal fire behavior. Sage-grouse habitat threatened. Reduction in acreage due to more accurate mapping.

**Hansel Valley**, Bear River Area, Utah DOF. Eight miles south of Snowville, UT. Timber, brush and short grass. Moderate fire behavior. Structures threatened. Reduction in acreage due to more accurate mapping.

**Trail Mountain**, Manti-La Sal NF. Fifteen miles northwest of Orangeville, UT. Timber and brush. Minimal fire behavior. Road, area and trail closures in effect.

\* **Cat**, Boise District, BLM. Eighteen miles northeast of Owyhee, NV. Brush and short grass. Active fire behavior with running, flanking and backing. Structures and sage-grouse habitat threatened.

\* **Francis**, Battle Mountain District Office, BLM. Thirty-one miles south of Battle Mountain, NV. Timber and brush. Active fire behavior with running and torching. Structures and sage-grouse habitat threatened.

#### Predictive Services Discussion:

High pressure will remain over the southwestern U.S., producing scattered showers and thunderstorms over the central and southern Rockies, the Great Basin, and the Southwest. Isolated to widely scattered thunderstorms will form across eastern Idaho and western Montana. Some storms will produce very little rainfall while others produce locally moderate to heavy rain. Stronger storms will form along an old front stretching across the Montana and Wyoming continental divide. Isolated storms will also develop in the Sierras and the northern California mountains. Showers and thunderstorm will form from the central Plains to the Great Lakes while heavy rain and thunderstorms move across the Eastern seaboard. Temperatures will again be in the 90s to 120 in the West with the hottest conditions in the southwest deserts. Upper 90s to 108 will continue in central and south Texas while the rest of the ranges from mid 90s in the Plains and Southeast to lower 70s in the north. In Alaska, showers and thunderstorms will move across the southern coast and form along the North Slope. Temperatures will be in the 60s and 70s with some 80s in the Upper Yukon.

This Day in History is a brief summary of a powerful learning opportunity and is not intended to second guess or be judgmental of decisions and actions. Put yourself in the following situation as if you do not know what the outcome will be. What are the conditions? What are you thinking? What are YOU doing?

## Dutch Creek Incident

**Incident Summary:** On June 12th, 2008, Andy Palmer graduates from high school. He completes Basic Firefighter training June 24<sup>th</sup> and Wildland Fire Chain Saw training (S-212) June 28<sup>th</sup>. He is hired as a seasonal firefighter on an engine crew June 29<sup>th</sup> and completes his A Faller taskbook on July 4th. July 22, 2008, the engine receives a resource order for the Iron Complex, California. The supervision at the park are motivated to see the engine crew obtain an assignment and call the crew in on their day off. The crew suffers a series of complications enroute to the fire including mechanical problems with the engine that lead to the eventual separation of the crew and engine captain after arriving at the incident. The remaining crew members are encouraged to pursue a line assignment as a falling team. The IMT personnel assign the crew as a falling module. During that assignment the crew cuts a tree that is outside their falling qualifications. A class C ponderosa pine is cut, falling downslope into a fire-damaged sugar pine. A portion of the sugar pine breaks off and falls upslope, hitting firefighter Andy Palmer, resulting in multiple severe injuries...and the loss of a firefighters' life. It was Andy's first fire assignment.

**Zero Hour.** July 25<sup>th</sup>, a radio transmission comes into Iron Complex dispatch: ***"Man Down Man Down. We need help. Medical emergency. Dozer pad. Broken leg. Bleeding. Drop Point 72 and dozer line. Call 911, we need help."***

The local Sheriff's office receives a call from incident command and begins inquiring for a helicopter. Two air medical services decline the mission due to poor visibility from smoke, California Highway Patrol's helicopter was not available and the US Coast Guard (USCG) had not yet been contacted.

Other firefighters arrive on scene. Nomex shirts are used as pressure bandages on shoulder and leg injuries. The injured firefighter is reported as having severe bleeding and being conscious. The severity of the injuries and the sense of urgency are *not* communicated to paramedics dispatched in an ambulance to the incident.

As the medics arrive on scene they realize the injuries are much more serious than they had been told and decide to facilitate a rapid evacuation via carryout.

**Fifty-five minutes since the accident.** The patient is prepared to move and the decision is made to go to the ambulance rather than waiting for the helicopter. The ambulance is approximately 2000 ft down the dozer line.

**One hour and 25 minutes since the accident.** A third paramedic has arrived on scene and the decision is made to wait for the helicopter. Firefighters start clearing a zone for hoist extraction.

**One hour and 50 minutes since the accident.** Multiple delays of the USCG helicopter are caused due to poor communications of patient status, potential use of a Forest Service helicopter assigned to the fire, and method of extraction. Once the USCG is enroute, communication about the new extraction location, radio frequencies and patient status is an issue and slows the extrication efforts. While being transferred to the hoist basket, personnel on the ground report profuse bleeding. No patient care can be given while being hoisted.

**Two hours and 47 minutes since the accident.** During the flight, cardiac arrest treatment protocol is initiated and the helicopter lands at Redding Municipal Airport with CPR in progress.

**Three hours and 26 minutes since the accident.** An ER Physician pronounced time of death, via radio. The Coroner later determined that Andy Palmer's death was caused by excessive blood loss.

### Discussion Points:

- ◆ *Identify and discuss a variety of options for medical evacuation (ATV, wheeled litter, etc.) anticipating that a helicopter will not be available.*
- ◆ *If the crewmember sitting beside you were to be seriously injured on the fireline, what would you and your crew do? How thorough is your unit or IMT's Incident Emergency Plan? Consider doing a mock-up medical evacuation from start to finish. Utilize the **new** Medical Incident Report in your IRPG to effectively communicate emergency information. Use [this 6MFS to learn how to use the MIR](#). Assess the drill with an AAR.*
- ◆ *Read page 2 in your IRPG.*
